

bewellconnect[®] joins Validic, the leading digital health platform

Paris, the 26 October, 2015

VISIOMED GROUP (FR0011067669-ALVMG), a company specialized in the advanced electronic medical grade devices, is proud to announce the integration of its range of connected health medical devices within Validic, the leading digital platform for collection of patient data generated from connected mobile health devices.

Validic is the healthcare industry's leading cloud-based, digital health platform. Validic provides convenient and quick access to patient data from in-home clinical devices, wearables and patient healthcare applications. By connecting its growing base of customers—that includes providers, pharmaceutical companies, payers, wellness companies and health IT vendors—to the continuously expanding list of digital health technologies, Validic enables healthcare companies to better coordinate care across their communities, improve their patient engagement strategies and more efficiently manage their patient populations.

Validic's innovative, scalable and FDA Class I MDSS technology delivers actionable, standardized and HIPAA-compliant consumer health data from the best in-class mobile health devices and applications. Validic was recognized for healthcare innovation by Gartner and received Frost & Sullivan's Best Practices and Best Value in Healthcare Information Interoperability award, as well as Top Ten Healthcare Disruptor award. Validic's leading global digital health ecosystem reaches over 160 million lives in 47 countries and continues to grow daily.

Eric Sebban, Founder CEO of Visiomed Group declares: *“only a few hours after the FDA clearance of our connected medical grade devices, this strategic agreement, enhances BewellConnect’s attractiveness. By associating our name to Validic, worldwide renowned for its digital health platform for patients data*

New generation medical technology

collection, we are becoming, more than ever, a key player, with the largest and the most coherent offer on the market and a long real-life experience in working with healthcare professionals.”

About VISIOMED GROUP

Founded in 2007 by Eric Sebban, VISIOMED GROUP specializes in new generation medical electronics. The laboratory develops and markets innovative health products in the booming field of medical and wellness self diagnosis devices. VISIOMED is notably the inventor of ThermoFlash®, the first-ever contactless infrared medical thermometer.

VISIOMED combines innovation, technology and design to provide non-drug solutions for prevention and treatment focused on simplicity, comfort and the wellbeing of users.

In 2014, VISIOMED GROUP announced the launch of its range of BewellConnect® connected health products, thus becoming the first medical electronics laboratory to penetrate the very-high-potential IoT market (Internet-of-Things).

Based in Paris, VISIOMED GROUP is backed by a team of 105 staff including sales teams dedicated to marketing to pharmacies (OTC), to health professionals (hospitals, clinics, retirement homes) and, since late 2010, to large retailers. Group sales in 2014 were more than €13 million. VISIOMED GROUP is recognized as an “Innovative Enterprise” by Bpifrance.

VISIOMED GROUP won national 2nd place in the 2014 Deloitte In Extensio Technology Fast 50 rankings, and European 2nd place in the Health/Biotech/Pharma sector Deloitte Technology Fast 500 rankings.
